

Ordering CAPTIVA Walgreens Risk Factor Medications

Please follow the below directions completely. Any missed steps will cause the study subject to have their order delayed and/or declined.

1. Please fill in CAPTIVA ID on **both pages** of this document (4-digit StrokeNet Site ID and 4 digit Subject ID). The locations are next to the star: ★
2. Go to: <http://www.walgreens.com/storelocator/find.jsp> to locate the Walgreens the subject would like to use. Any Walgreens is fine.
3. Call the chosen Walgreens pharmacy number and SPEAK TO THE PHARMACIST. Do NOT just leave a voicemail with the new prescription.
4. Provide the following information to the pharmacist by phone:
 - Subject's name
 - Date of Birth
 - Address
 - Phone Number
 - Tell the pharmacist the entire charge for the formulary medications below should be billed to the CAPTIVA MUSC account. (The information will be provided on the next page as well as below):
 - Walgreens Input Code: MUSSC
 - Walgreens Group ID: CAPMUSC
 - Walgreens BIN#: 014468
 - Walgreens PCN#: MUSSC
 - ★ Walgreens Recipient ID (CAPTIVA ID): _ _ _ _ - _ _ _ _ _
 - (4-digit StrokeNet Site ID and 4 digit Subject ID)
5. Read the prescription to the Pharmacist. Please give the subject only 90-day supply of medications with 7 days extra.
 - Do NOT authorize more than one refill (and not to extend beyond 12 month visit)
 - The subject should need a new RX called in every study visit for the medications they need. This is to increase subject adherence to the study visit schedule and prevent excess charges to the study.
 - CAPTIVA will only provide the following medications:

Medication	Dosages
Atenolol	50mg, 100mg
Atorvastatin	20mg, 40mg, 60mg, 80mg
Chlorthalidone	25mg
Spironolactone	25mg
Candesartan	16mg, 32mg
Clonidine	0.1mg
Felodipine	5mg, 10mg
Hydralazine	50mg
Lisinopril	10mg, 40mg

6. Give the Subject two items:
 - A copy of the next page (Remember to fill in the CAPTIVA ID on both pages)
 - Written or Printed copy of the Prescription
7. If you have any problems with the Walgreens pharmacy – call the CAPTIVA Hotline at 888-351-7776 and select option #3 for the Risk Factor Management Center

Walgreens Pharmacy Instructions: CAPTIVA-Study Medications

CAPTIVA Patient: Please give this piece of paper to the person at the Walgreens Pharmacy Counter.

Pharmacists: Please Read!

This patient is a study subject in the NIH-funded CAPTIVA Trial. Please dispense only the number of tablets written on the prescription. Only the medications at bottom of page are covered by the trial, others will be rejected.

Input the below information to ensure the subject's invoicing is routed correctly. The 8-digit Recipient ID (aka CAPTIVA ID) should be filled in by the subject's CAPTIVA Study Coordinator.

Plan Name:	Medical University of South Carolina	
Input code:	MUSSC	
Group Id:	CAPMUSC	
Recipient ID #: ★	____ - ____ (This is the 8-Digit Coordinator Input CAPTIVA ID)	
BIN#:	014468	
PCN #:	MUSSC	
Refills:	Yes	

Internal Walgreens Member Checklist:

- Ensure Authorization Form is completed
- Select "Start Scanning Card" button in IC+
- Scan Authorization Form into the subject profile
- Any pharmacy processing issues - open a Service Desk ticket on StoreNet

CAPTIVA will only provide the following medications:

Medication	Dosages
Atenolol	50mg, 100mg
Atorvastatin	20mg, 40mg, 60mg, 80mg
Chlorthalidone	25mg
Spironolactone	25mg
Candesartan	16mg, 32mg
Clonidine	0.1mg
Felodipine	5mg, 10mg
Hydralazine	50mg
Lisinopril	10mg, 40mg

IF THERE ARE ANY QUESTIONS OR PROBLEMS, PLEASE CALL THE CAPTIVA HOTLINE AT 888-351-7776 and SELECT OPTION #3 FOR THE RISK FACTOR MANAGEMENT CENTER. A staff member will be available from 7:00 AM to 9:00 PM (EST) to assist you in resolving any problems that would prevent this subject from receiving these medications without charge.
